

9
Valley fold the top triangle down.

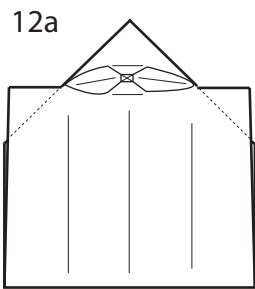

10
Fold and Unfold.

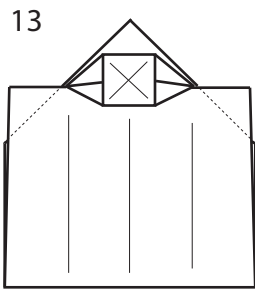

11
Raise the triangle up 90 degrees.

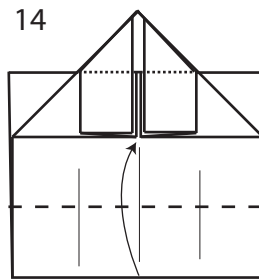

12
Flatten the tip. It's a partial sink and squash.

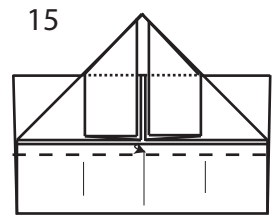

12a
Intermediate step.

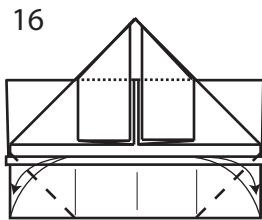

13
Turn over.

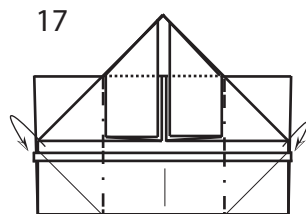

14
Valley fold.

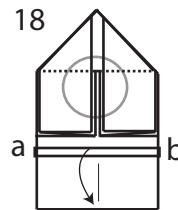

15
Valley fold the top layer down.

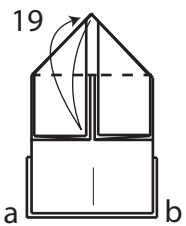

16
Fold and unfold.

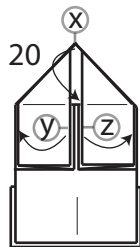

17
Mountain fold all layers under.

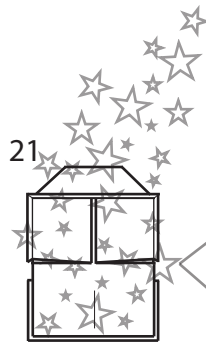

This is a neat fold. I call it a swivel. Pinch the model top and bottom where the circle is. Pull edge a-b up 90 degrees. The paper will slide and lock (swivel) on the crease made on step 16.

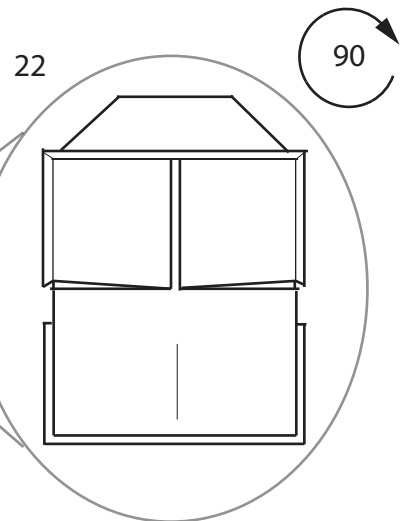

19
Valley fold the triangle down. Unfold.

20
Pull point x, edge y and edge z up 90 degrees.

21
Sprinkle some fairy dust.

22
Rotate 90 degrees.
